Dedication

"Teaching school has been my life. If I had my life to live over, I would be a school teacher. I hope in some small way, I have contributed to the success of girls and boys in the state of Missouri and especially in Wright County."

"As Will Rogers would say, 'I've never met a student I didn't like'."

In honor of 50 years service to Missouri students and especially for 22 years of service in the Hartville School System, we, the 1978 Eagle Staff, are happy to dedicate the 1978 EAGLE to Mrs. Claris Colton.

A 1926 graduate of Hartville High School, Mrs. Colton continued her education at S.M.S. where she received her B.S. degree in 1940. Attending the University of Missouri at Columbia, she received her Master's Degree in 1954.

After high school, she taught in Wright County elementary schools for 13 years while furthering her education in the summer.

In the past 37 years, Mrs. Colton has acted as high school principal and has taught business courses in various Missouri schools.

This dedication is certainly not the first honor bestowed upon Mrs. Colton. She is a member of Alpha Delta Kappa which is an honorary teacher's organization. In past years, she has served as vice-president of the Southwest Missouri State Teacher's Association and also as chairperson of the Southwest Missouri Business Teachers.

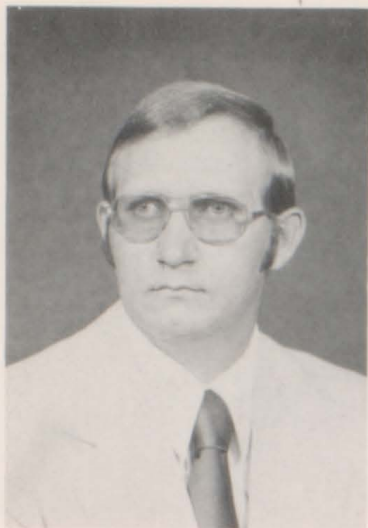

Through this dedication, we wish to express our appreciation for the help and concern Mrs. Colton has shown to three generations of Wright County students.

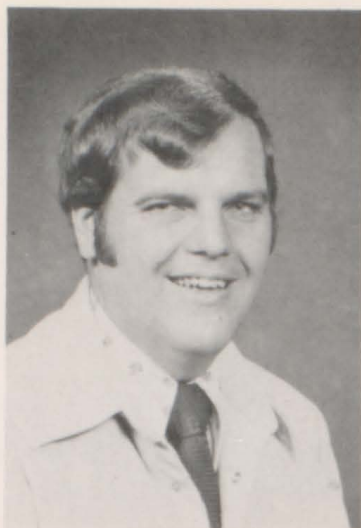

"Divide your 'is's' by your 'of's'."

Academics

Agriculture

In Mr. Cantrell's various agriculture classes, students learn useful information related to that field. In Animal Science the class studies digestion, reproduction and animal life processes. Plant Science deals with different varieties of seeds and plants and also soil profiles are studied. In the Ag. Construction Class, various shopwork techniques are done under the instruction of Mr. Cantrell. In Welding and Electricity, the students construct gates and headshuts and are learning the principles of electricity. In Beef and Dairy Production, the judging techniques of beef and dairy animals are stressed. The class also learns about reproduction, nutrition, and the methods of achieving high productivity from the animals.

Art

The art classes, taught by Mr. Marler, consist of Art I and Art II. Art I is offered to students from Grades 9-12. The basics of drawing, painting, sketching, pastels, and crafts are learned. In Art II, photography, as well as crafts, drawings, and the more advanced pastels, is taught. In photography, students learn the parts of a camera, about film, and how to develop beautiful pictures.

Business

The business classes offered at Hartville High School help prepare students for later work, especially in the clerical and professional field.

The three classes taught by Miss Wilson are typing, shorthand, and Clerical Office Practice. In typing, students are taught correct methods of typing business forms and letters. In shorthand and Clerical, the students learn the basic functions of an office.

General Business and Accounting are taught by Mrs. Colton. In General Business the students are taught the fundamentals of different areas in the business world. Accounting students learn to keep records and other business finances.

English

Mrs. Dryer taught English I, English II, Word Study, Speech, and Drama. English I students studied grammar, and they expanded their vocabulary through weekly vocabulary tests. They also studied *ROMEO AND JULIET*. The students in English II reviewed their grammar and wrote many compositions. The Word Studies class was introduced to the proper usage of a dictionary. By studying words and many spelling rules, these students were helped to understand the spelling of words.

The speech class studied the correct way to give and to write speeches. The drama class studied stage acting.

English and French

English classes under the direction of Mrs. Reed were Poetry/Great Books, Short Stories/American Novels, and Appreciation of Literature. Mrs. Reed also taught French I.

Students taking Poetry learned how to apply the different elements used in writing good poetry, such as, similies, metaphors, and personifications.

In Great Books, students were given many interesting books to read. After the book had been read and a test taken over the contents of the book and also the author, they were given a subject from the story in which to write a composition.

Students in Short Stories/American Novels read many stories which were discussed in class.

Students taking Appreciation of Literature, a college oriented class, were taught to survive, function, and excel in college English. They were taught the background of the English language and the basics of good manuscript writing.

In French, Madame Reed not only taught her class how to speak French, but also many of the customs of the French people. Near the middle of the year, Madame Reed cooked a French meal for her class.

Home Economics

The Home Economics Department is comprised of several Classes which prepare students for many aspects of everyday living. The instructor of these important courses is Mrs. Nelson. Home Economics I gives the student insights to the basics of sewing, foods, and nutrition. Personal culture and clothing deals with one's personal appearance and different aspects concerning clothing. Family relations and child care deals with different views of dating, marriage, and parenthood. Foods and family health students practice meal planning and betterment of family health. Bachelor living is for the male students and consists of instruction in the areas of sewing, food, nutrition, and family relations. Students gain much from this department.

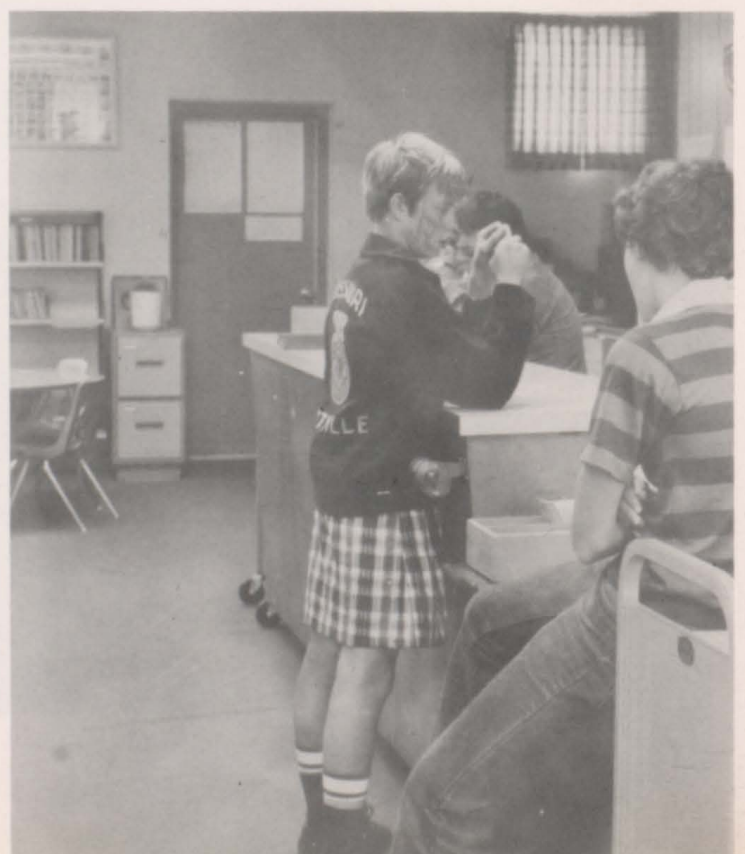

First row: M. Weaver, C. Henderson, J. Jones, C. Malone, W. Russell, J. Rippee, K. Moles. Second row: M. Jones, N. Barr, J. Morell, B. Long, R. Moore, M. Carr, B. Lansdown, K. Parker.

Library

Libraries are
not made;
they grow.

Industrial Arts

"If I Had a Hammer" might be an appropriate theme song for the Industrial Arts classes. This part of the Practical Arts department, taught by Mr. Pellham, offers such classes as general shop, woodworking, drafting, and power mechanics and metals. All students are given the opportunity to exhibit their skills by entering projects in the Summit Conference contest. Joel Cravens was awarded "Best of the Show" for his rocking chair. Jan Rippee won a blue ribbon for her desk.

Mathematics

The basic math class involved a thorough review of the "basics," while the Algebra I class solved equations and graphed ordered pairs. In geometry, students learned to work proofs by applying theorems. Algebra II consisted of a small group of six students, who, in addition to the regular assignments, did some interesting work with bio-rhythms.

Plato once said "Let no one ignorant of geometry enter my door." However, it was fortunate for the math students that Mrs. Brown's door to knowledge was open throughout the year as she guided her basic math, algebra, and geometry students to better learning experiences.

Science

Science students learned a great deal under the instruction of Mrs. Miller this year. The Physical Science class studied a brief look at both Biology and Chemistry. The Biology I class studied beginning Biology while Biology II students studied it in more detail. They also spent some time in lab work. The Chemistry class spent the year doing chemical problems and lab work. Mark Dixon, for the third year, won Grand Prize at the Rolla Science Fair.

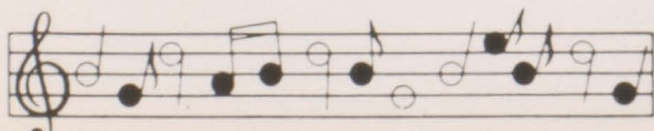

Instrumental Music

Under the direction of Mr. Stubenrouch, the band worked hard on marching and concert material.

A large part of first hour was wisely spent on scales, slurs, and other various warmup exercises. Then after warmups, the hour was completed with intricate works such as Handel's "Hallelujah Chorus."

Vocal Music

Mr. Wheatley has built a very good vocal department. Girls' Glee Club and Mixed Chorus worked hard to present a very fine fall concert and Christmas program.

This year, two smaller groups were formed with select members from the two larger choirs. These were the Madrigal and Swing Choir. Their main goal was performing more difficult pieces of music.

Reading

Reading, which is being taught in the trailer this year, is a very close-quarter class. Its main object is to provide the individual with help in the reading area in which he or she is lacking.

Physical Education

The one P.E. class for girls, which is taught by Mrs. Dickinson, played various games throughout the year. These games consisted of basketball, softball, kickball, and prison ball.

The boys' P.E. classes taught by Coach Hunt and Coach Marcus also played a number of different games.

Although each group had fun with each activity, they had exercises to do at the beginning of each class.

Social Studies

Hartville High's Social Studies classes are taught by Mr. Turner and Mr. Jones. The social studies department offers six classes developed to aid students to help understand their world. American History is the study of America's development from the Civil War to the present. Missouri History is the study of Missouri's progress as a state. Economics is the study of America's economy. And, Sociology-Psychology is the study of group and individual behavior. These classes are taught by Mr. Turner. Mr. Jones teaches three equally informative classes. These are: World History, the study of the growth of the world around us, World Geography, the study of physical and cultural geography, and Contemporary Issues, the study of current events and problems.

Contest Participants

Each year, students and teachers look forward to participating in the Summit Conference contests, and District contests. This year the following were involved in contests:

INSTRUMENTAL MUSIC

Percussion Quartet—Linda Hines, Mike Young, Nancy Barr, and Wayne Hughes
Saxophone Solo—Mike Young
Saxophone Quartet—Mike Young, Eve Jones, Rhonda Carr, Jane Jones

VOCAL MUSIC

Girl's Sextet—Babby Jinks, Mary Bonnarens, Lesa Bond, Denise Hogan, Myrna Wakefield, Rhonda Davis
Boy's Double—Brad Robertson, Mike Young, Don Smith, Glen Widner, Troy Christensen, Johnny Lemons

Junior and Senior Banquet and Prom

"Stairway to the Stars"

The Junior Class presented a successful banquet and prom with theme "Stairway to the Stars." A welcoming speech was made by Brad Robertson and the acceptance speech was given by Jimmy Wiseman. After the smorgasbord was served, the Senior wills were read by Mike Young and Linda Hines and the Senior prophecies were read by Pepper Claxton and Jeff DeWater. The prom began shortly after the banquet, and the music was provided by Friends.
