District I Ratings — Jeff Crisp, Brent Keith, Jeff Robertson, Beth Durbin, Jim Olsen, Darren Widner, Brent Green.

Brent Keith and Jim Olsen competed at the State level.

FFA:

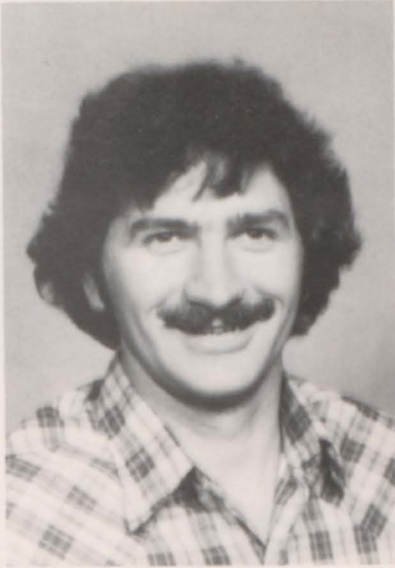

Soils — Jim Barnes, Kevin Horn, Greg Todd, Tim Bass; Meats — Kim Long, John Nichols, Terry Sherman, Gary Dedmon; Livestock — Brent Jones, Jeff Delcour, Greg Todd, Carol Haraldson; Dairy Cattle — Jennifer Thompson, Teresa Shaver, Teresa Jones; Creed Speaking — Jennifer Thompson; Parliamentary Procedures — Terry Sherman, Greg Todd, David Carter, Kim Long, Tim Bass, John Nichols, Chris Davis; Dairy Products — David Barr, Chris Davis, Terry Sherman, Daniel Barr; Field Crops — Chris Davis, Daniel Barr, John Nichols, David Barr; Ag. Mechanics — Dan Divine, Brent Jones; Public Speaking — David Carter; Greenhand Knowledge — Tony Melvin, Jennifer Thompson, Teresa Shaver, Teresa Jones.

Honor's Night

Academics

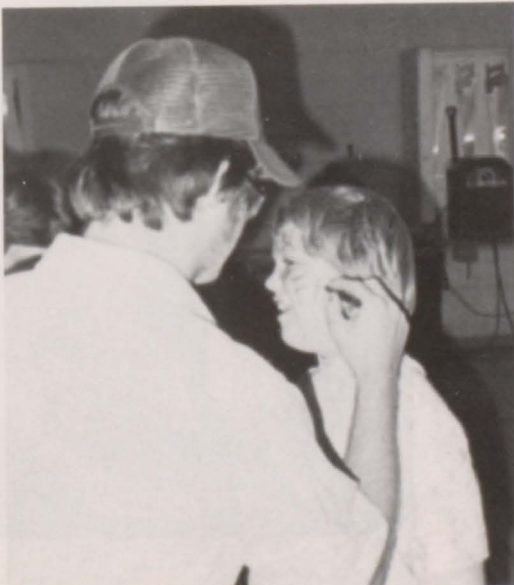

Agriculture

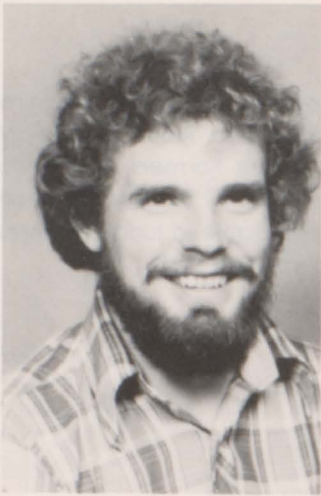

Steve Cantrell

Mr. Cantrell has been with us now for 9 years. He teaches classes such as Animal Science, Arc. Welding, Livestock Selection, Weedworking and Plant Science. Mr. Cantrell is the sponsor of the Hartville Chapter of the Future Farmers of America. This group is involved in many outside projects. It sponsors Donkey Basket Ball games, the Barnwarming Dance, and sells fruit. They are also very active in judging contests on various animals, soils and also the proper running of their club.

Art

Steven Buck

Mr. Buck is a new and young teacher who brings with him a wealth of new ideas and teaching methods. This year Art I students have been learning the fundamentals of Art. Both Art I and Art II have been working on some very interesting and unusual projects using some very different materials and ideas. Besides working with High school students, Mr. Buck has enjoyed teaching Elementary students that there is more to art than a sketch pad and pencil. Projects are shown late in the year at the Spring Art Show.

Gary Jones

Nancy Jones

The business classes at Hartville are very valuable to all students, whether they go to college, enter the business field, or any other field.

Mrs. Jones teaches Shorthand, Clerical Office Practice, and Accounting. Typing, which is taught by both Mr. and Mrs. Jones, involves learning the keyboard and typing letters, tables, and reports. Typing II, taught by Mr. Jones, picks up where Typing I leaves off. A practice set is also completed using actual business forms.

Mr. Jones also teaches General Business, where the class learns the basics of the business world, and Business Law, where students are introduced to different aspects of the law.

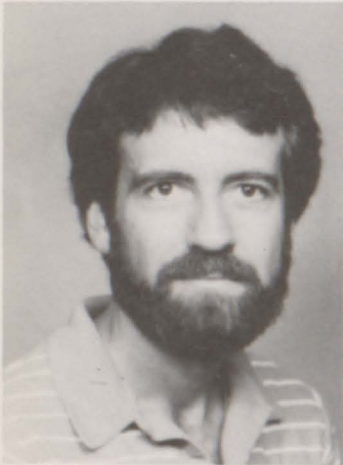

Business

Counseling

Gordon Emmerson

A large array of services is offered in the counseling office. Scheduling help, school and community information, personal and career counseling, group and individualized testing, and help with college information, applications and scholarships, are all available.

Information and guidance is also available for correspondence study, summer programs, jobs, drug abuse, and personal improvement.

The counseling center offers confidential assistance on a voluntary basis and encourages all students to take advantage of its services.

Driver's Ed/Health

In our Driver's Education class, taught by Mr. Hunt, the students spend six weeks in the classroom studying the rules of the highway and the car. In addition, they receive actual on-the-road experience. All in all, this class enables students to become better and safer drivers.

Mr. Hunt also teaches health, a class which deals with the human body and related functions.

Denny Hunt

English, Speech, and Drama

Bobbie Ann Dryer

Mrs. Dryer teaches English I, Mythology, Introduction to Literature, Speech and Drama, and Appreciation to Literature. Students learn correct rules of grammar in English I as well as studying a Shakespearean play and an American novel. Mythology, which is a new class this year, is very popular. Students learn about Greek and Roman myths and heroes. In Introduction to Literature students are introduced to various types of literature including poetry, short stories, essays, plays, and novels. Speech students learn how to speak correctly in public while sharpening their communication skills. Drama students learn to express themselves on stage. For more serious students, Appreciation of Literature is excellent college preparation. Students study different time periods of English literature.

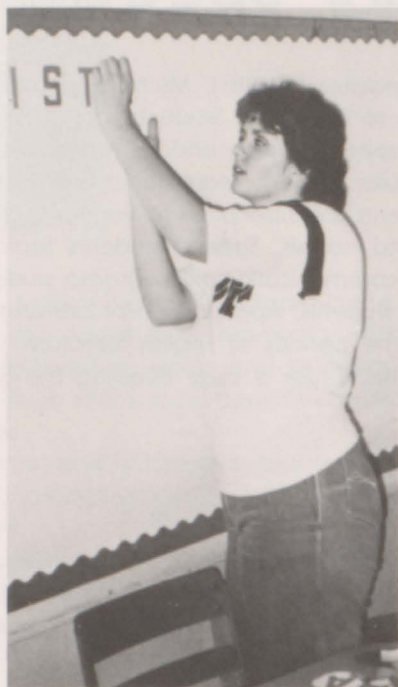

In the fall, Mrs. Dryer is busy directing the Senior Play.

English Literature And German

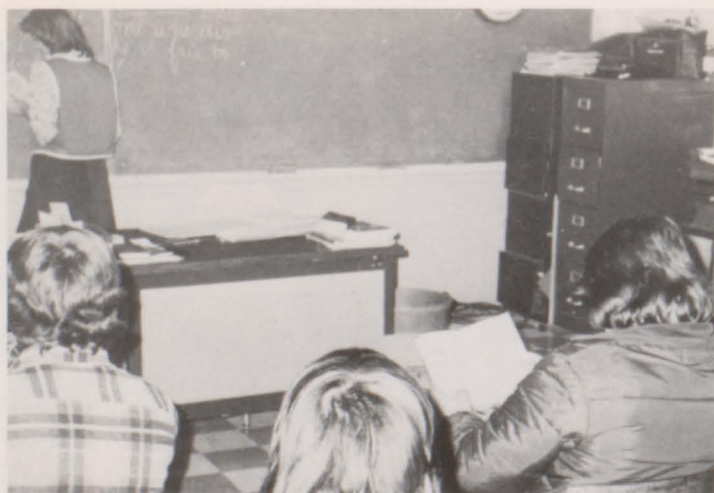

Linda Roller

Mrs. Roller teaches German I, German II, Literature, and Practical English. Mrs. Roller spent this past summer in Austria and Germany and has brought back many interesting facts, pictures, and stories to share with her classes, particularly her German I and German II students.

Mrs. Roller sponsors German Club, which sold German gummy bears as a fund-raiser. She also directs the Junior class plays and co-sponsors the Junior class with Mrs. Jones.

Paula Nelson

Home Economics

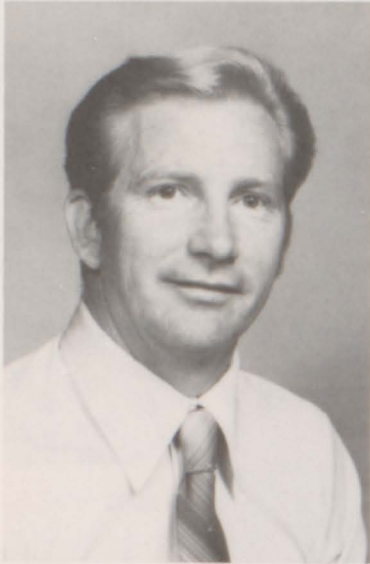

Home Economics classes, taught by Mrs. Nelson, help prepare young men and women for the everyday life of making a home. Home Ec I gives guidance about sewing, cooking, and nutrition.

Family Relations and Child Development help students get ready for family life and help young people in dating and parenthood. Family Health helps students to improve the family's health. Family Meals and World Foods teach students how to plan and prepare meals. Clothing helps students to choose clothes that look right on them and also make their own clothes.

Mrs. Nelson, also the FHA sponsor, guides the students during FHA meetings and has a dinner for the school board members and also one for the faculty.

Industrial Arts

Keith Pellham

Mr. Pellham teaches several woodworking classes offered to each of the four grades. In his classes, students learn the fine art of woodworking, and the proud feeling that comes with the accomplishment of building a project. Students can enter their projects in the Summit Conference contest in the spring, also offered are drafting and power mechanics, which teaches the know-how of small engines.

Library

First row, l. to r.: W. Vermillion, S. Russell, T. Atterberry, C. Cantrell, M. Carr, Librarian, J. Barnes, L. Gregory, C. Johnstone, L. Jordan, L. Jones, K. Parker Second row: B. Weaver, G. Hardesty, J. Truster, S. Schmidt, J. Woods, L. Welch, J. Brixey, M. Schmidt

Molly Carr

Mrs. Carr, the school librarian, divides her time between both the Hartville and Grovespring libraries. She helps the children from each school find information from books and magazines and teaches them how to use the library correctly.

To help Mrs. Carr with her daily work she has high school students to assist her. They do some of the same things as Mrs. Carr clean up the library by straightening chairs and tables, refilling magazines in their proper places, and checking out books to students.

Math

Joel Miller

Mr. Miller teaches four math classes. These include: Basic Math, Algebra I, Geometry, and Algebra II. Basic Math teaches the student the basics of arithmetic. Algebra I teaches the student the fundamentals of algebra, such as linear equations and polynomials. Geometry teaches the student how to think and prove things logically. Algebra II teaches advanced concepts of algebra. These include quadratics and functions.

Theresa Dixon

Music

This year is Mrs. Dixon's third year at Hartville and the band is steadily improving.

The marching band won a second place trophy in the AA Division in Southwest Baptist University's Homecoming parade. The band also won a first place trophy at Seymour's Christmas parade.

This year brought a new music director to Hartville. Mr. Faucett has worked very hard with the Mixed Chorus and Girl's Glee Club this year.

Spring brings a rush of activity as the groups as well as many solos and ensembles prepare for the District Music Festival.

Everyone appreciates the time and patience that goes into developing our music department.

Joe Faucett

Physical Education

Martha Dickinson

Bill Marcus

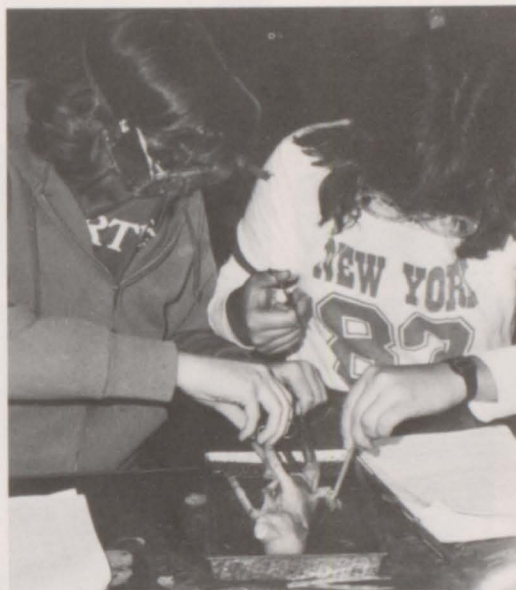

Physical Education at H.H.S. is taught by Mr. Marcus and Mrs. Dickinson. In Girls' PE the girls do daily exercises and play various games. Boys' PE also do daily exercises and play basketball, warball and other games. Each quarter a physical fitness test is completed.

Science

Mr. Burns teaches the four science classes at Hartville. These include Physical Science, Biology I and II, and Chemistry. In Physical Science students learn the basics about the physical sciences, physics and chemistry. In Biology I they learn about the way things grow and survive in the wild. Biology II students learn about the higher animals such as the primates and man. Chemistry students learn the how and why of chemical reactions and the rules which govern them.

Terry Burns

Social Studies

Patty Hunt

Mrs. Hunt teaches American History, a class all students must take. They learn about the history of the U.S. beginning with the Civil War to the present. She also teaches Sociology/Psychology, a study of group and individual behavior. Another class taught by Mrs. Hunt is Missouri History/American Government. Mrs. Hunt sponsored the cheerleaders and pep club and is to be praised for a job that takes lots of time and patience.

Mr. Dixon teaches two classes: Contemporary Issues and World History. In World History students learn history of the world over. The Contemporary Issues course for Seniors is based on current events and topics.

Mr. Jones, who is pictured on the business page, teaches Geography. It is a study of the world and its different cultures in different geographical areas.

Galen Dixon

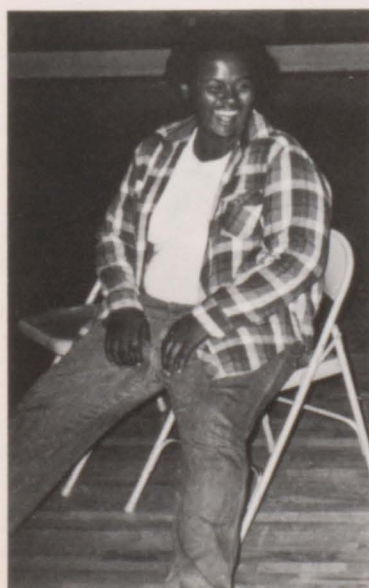

Vo-Tech

L-R: P. Young, F. Barr, R. Volner, M. Lansdown, K. Moore, K. Gregory, A. Armstrong, K. Williams, M. Widner, L. Malone, A. Camby, M. Jones, B. Jones, D. Divine, R. McDaris - Bus Driver.

Students who are in Vo-Tech go to Lebanon High School to their vocational school. While there they learn many skills in different fields. Auto Mechanics is concerned mainly with adjustment, repair, and installation of parts, and general maintenance of the automobile. Carpentry is designed to equip the students with the necessary skills in building and furniture construction. Machine Shop prepares students to learn how to select tools and materials necessary for different jobs and how to work from blueprints. Refrigeration is a study of the theory and practical application of domestic and commercial air conditioning and refrigeration.

In Memory Of

Emma L. Downey

December 5, 1969 to
March 15, 1983

Andrew Carr

July 4, 1968 to March 15, 1983

To Andrew: Our Friend

Andrew Carr, a trustworthy person, a loyal friend and great companion has left us now, but his memory lives on. I only shared one class with him this year, but my best memories are from last year in the eighth grade when I sat next to him. We would talk hours on end, and there were times we would get into heated debate on different matters; but when it came down to it, we were as close as friends could be. There were times when we might both lose our tempers and for a time be angry, but it would last only for a short while.

I can remember playing chess with him at recess (he was very good), and together we tried to teach the game to others. I can also remember playing war - ball in P.E. He would enjoy nothing more than to "burn" somebody, but he was always a good sport when we got him back.

I always noticed that if anyone was a good friend of his, Andrew would go the distance for him. Because he was sensitive to the feelings and needs of others, he would often stick up for anyone he thought was being unfairly mistreated.

Yes, Andrew, I salute you for what you were - in the truest sense of the word - a friend!

By Terry Bledsoe, Freshman and Andrew's friend

Hartville Lions Club

Are there Lions in Hartville?

Yes! There are 29 Lions, a proud part of the international organization comprised of 1,339,558 members in 35,785 clubs in 155 nations and geographical areas.

What does the Lion motto, "We Serve" mean?

It means that Lion Clubs were formed to (1) create and foster a spirit of understanding among the peoples of the world; to (2) promote the principles of good government and good citizenship; to (3) take an active interest in the civic, cultural, social and moral welfare of the community; to (4) provide a forum for open discussion of all matters of public interest; and to (5) encourage service-minded men to serve their community.

LIONS Club International also maintains a world famous Eye Tissue Bank, an Eye Research Foundation (with hospital) and provides Seeing Eye dogs all as a part of their vital sight program. LION funds also support other health programs and are used to aid victims of disaster in the United States and throughout the world.

Hartville LIONS support, in addition to the above, many worthwhile community projects, including the annual fireworks display, clean-up days, glasses for the needy, etc. Funds are raised in many ways, including BBQ's at community functions, Truck Pulls, Trap Shoots, etc.

Men interested in becoming a part of this worthwhile service organization are invited to contact any member. Roar with the LIONS and find great satisfaction in serving.
