

EL LEON '60

THIS OLD SCHOOL

This old school has known many student,
This old school has heard much strife,
It has been our joy and comfort,
As we fought the storms of life.
These old halls have rang with laughter,
These old halls have heard many shouts,
Now they tremble in the darkness
While the lightening walks about.

Ain't a gona' need this school no longer,
Ain't a gona' need this school no more;
Ain't got time to fix the chimney,
Ain't got time to fix the floor,
Ain't got time to oil the hinges,
Nor to mend the window panes.
Ain't a gona' need this school no longer,
We're getting ready to graduate.

This old school is a gettin' chilly,
This old school is a needin' paint,
This old school lets in the wind,
This old school lets in the rain.
Oh, our knees are a gettin' shaky,
But we feel no fear or pain,
Cause we see the world a peekin'
Through a broken window pane.

Ain't a gona' need this school no longer . . .

The freshmen lie a sleepin'
They don't know we're gona' leave,
Else they'd wake up in a moment
And sit and cry and grieve.
Now these high school days are over,
Ain't a gona' use this school no more.
We left this good old building
When the wind blew down the door.

Ain't a gona' need this school no longer . . .

OUR BUILDINGS

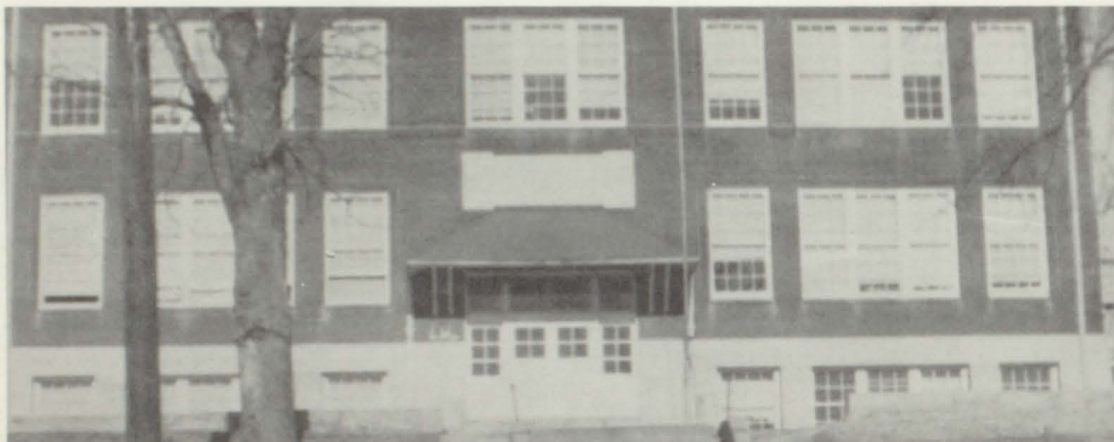

The schools at Mansfield, as everywhere, exhibit the growth and prosperity of the community. You can trace the cultural and industrial movement by looking at the changes in the educational facilities.

PAST

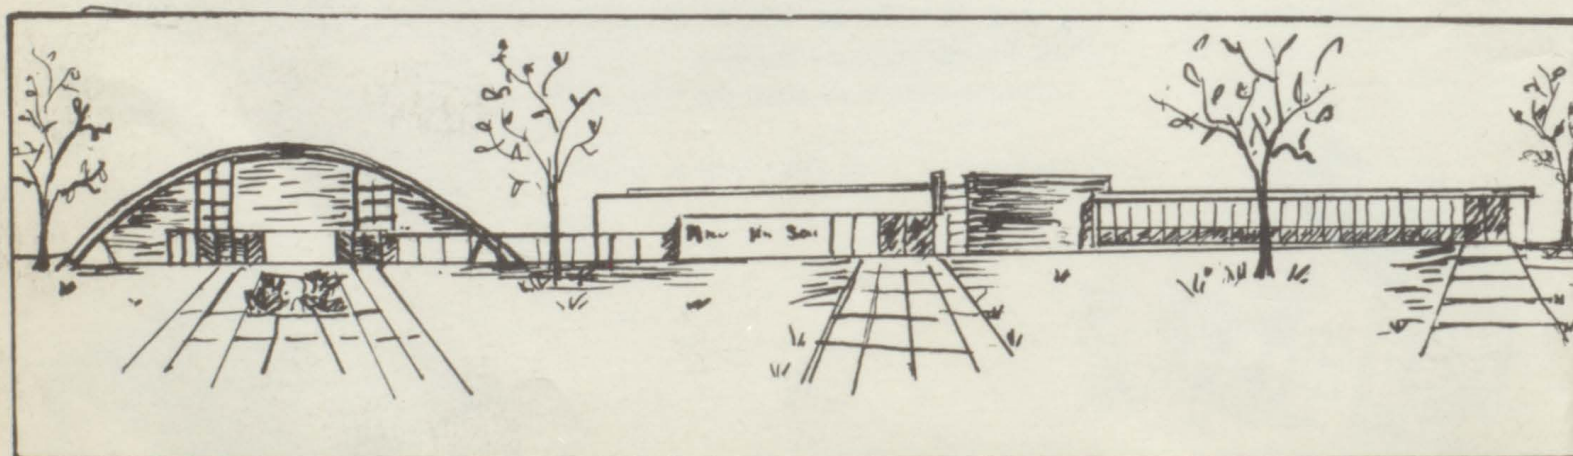

When Mansfield was a new town, it did not have or need a large building. Everyone was taught with the articles on hand and it was sufficient.

PRESENT

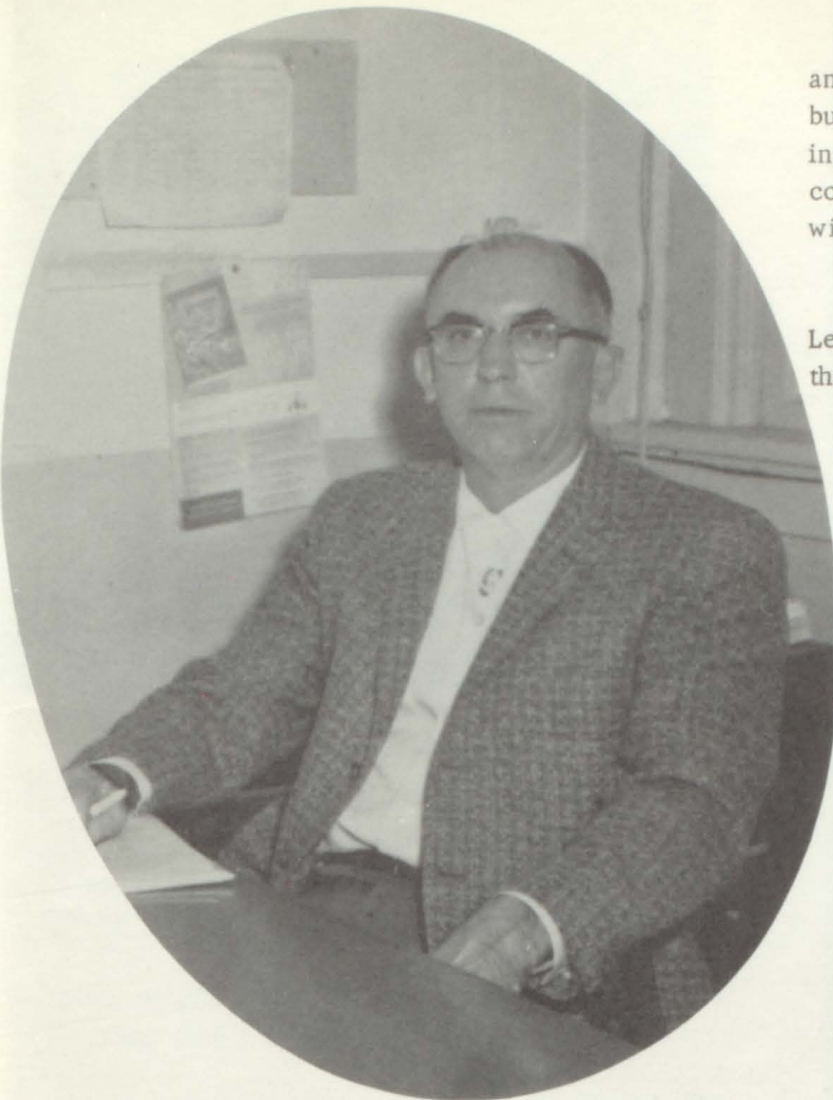

But as Mansfield grew, a better building was required. Thus this building was erected. From these hallowed halls, we now move to . . .

FUTURE

. . . this building, when completed. This is the school of next year, and the next, and the next. As Mansfield has grown so has its education developed.

Our community is to be congratulated upon their efforts and success in providing better facilities in the way of new buildings for our educational program. We know new buildings do not make an educational program, but housing accommodations are essential and the High School buildings will certainly be a great help to our program.

I want to thank the annual staff, the staff sponsor, Miss Leila James, the student body and citizens of Mansfield for their cooperation in building this year's annual.

Respectfully yours,

Robert J. Clark

Robert J. Clark
Superintendent

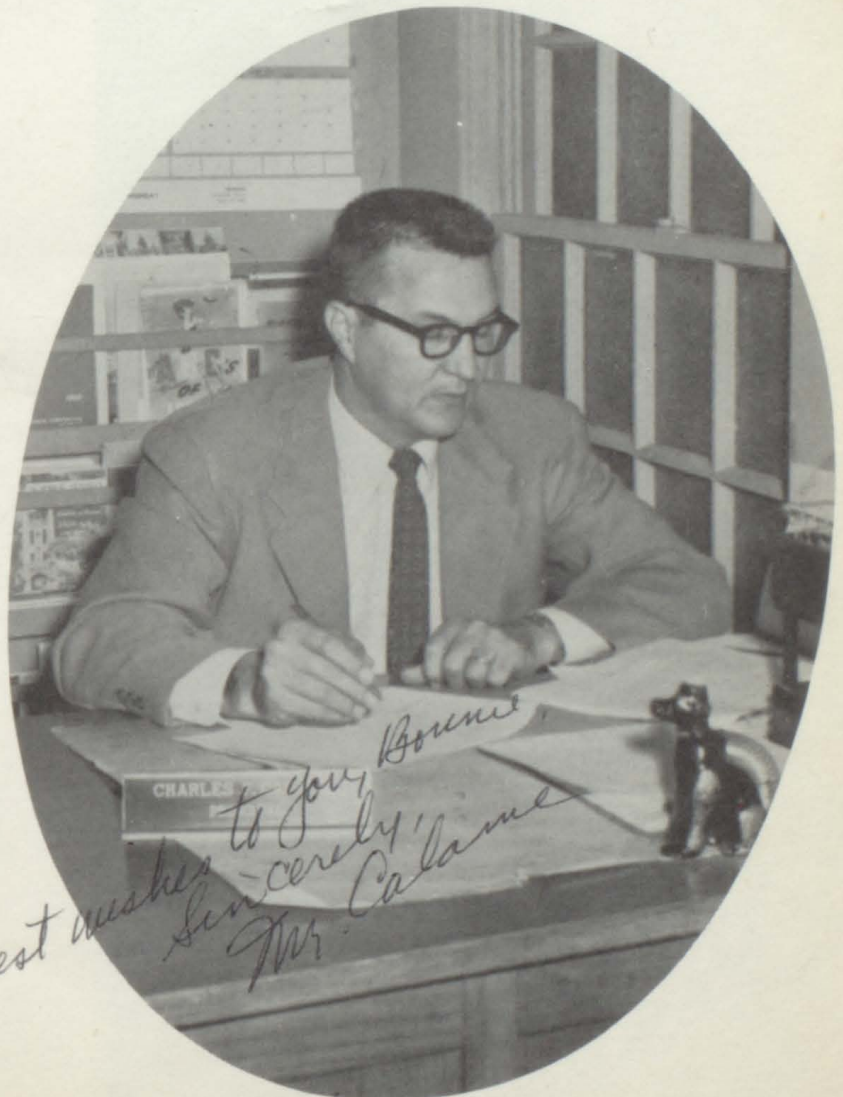

Education means much more than the spending of time in an institution of learning surrounded by books. The process should involve the total development of a desirable member of society, using all available aids to achieve this goal.

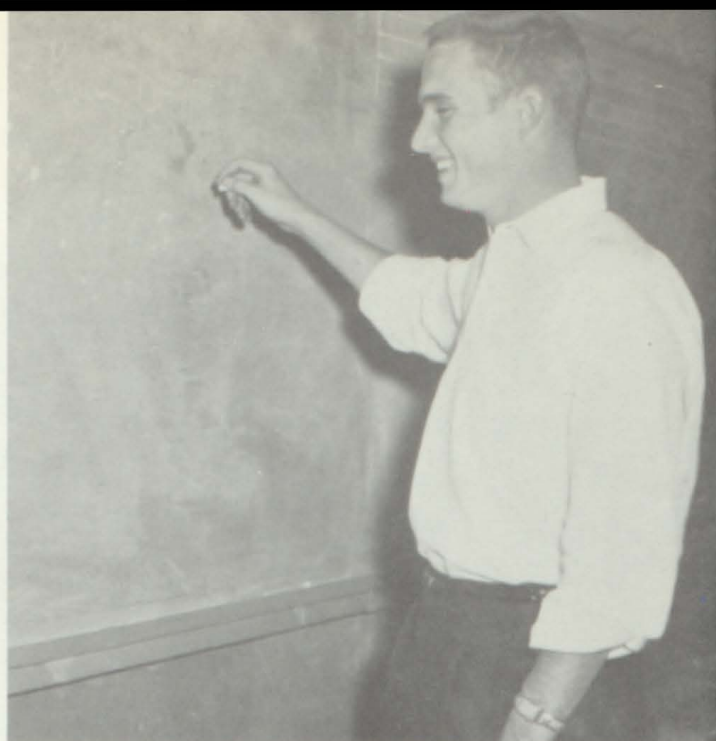

This task is so great that it cannot be accomplished without a high degree of cooperation and mutual understanding between all those who hope to gain by education.

It would be difficult to overemphasize the value of a good educational system. Individuals, homes, and communities must believe this if our way of life is to continue.

Sincerely,

Charles F. Calame

IN MEMORIAM

One of the greatest losses of the year was suffered by the Juniors, December 23, 1959, when Norma Jean Stanifer was fatally injured in a car accident.

Norma had been a member of this class since the first grade.

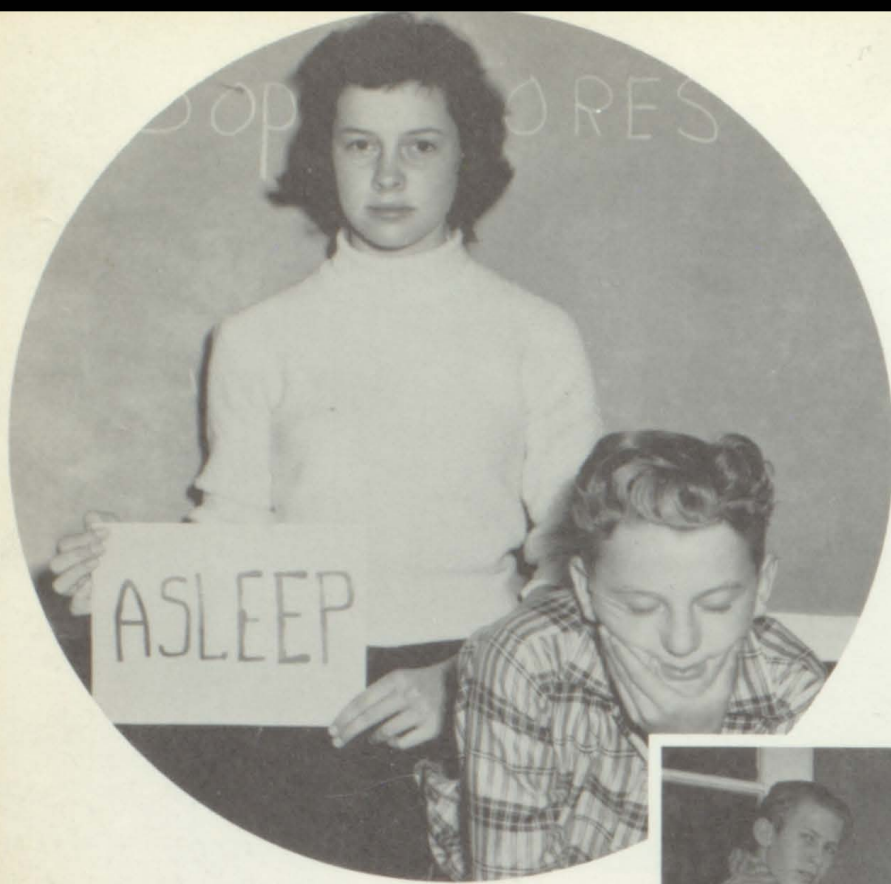

She was a friend to everyone. A smile and a pleasing personality came natural to Norma. She had little to say, and always a kind word.

We will all miss Norma as a classmate and friend.

As Future Homemakers of America we strive to promote a growing appreciation of the joys and satisfaction of home-making; to emphasize the importance of worthy home membership; to encourage democracy in home and community life; to work for good home and family life for all; to promote international good will; to foster the development of creative leadership in home and community life; to provide wholesome individual and group recreation; to further interest in home economics.

The Future Farmers of America, or "FFA" as it is commonly known, is the national organization of, by, for boys studying vocational agriculture in public secondary schools under the provisions of the National Vocational Education Acts.

The Future Farmers of America is a non-profit, non-political, non-sectarian farm youth organization of voluntary membership, designed to take its place along with other organizations striving for the development of leadership, the building of a more permanent agriculture, and the improvement of country life.

PUBLICATIONS STAFF

This, the year of 1960, has been a truly wonderful one. It has been one that shall not be forgotten easily. We have had fun constructing the 1959-1960 "El Leon" and we sincerely hope that you will find it a pleasure and a joy to look through this yearbook and relive your memories of this wonderful school year.

We, the annual staff, want to take this opportunity to express our sincere thanks to Miss James, our instructor, for her untiring effort to help us meet our deadlines. We also would like to thank Mr. Lewis, Taylor Publishing Co., all school officials, and people of the community who have made this year's 1959-1960 "El Leon" possible.
